EECE 503 is a course code but did not appear in course codes. And I said I want to prepare the previous for the session not the session itself, should've went into tasks

## Test 2:

Input: "i need to go to my driving lesson today at 1 pm, i want to test my EECE 503N project, I want to prepare a previous for my EECE 210 session, i want to give the session at 7:30 PM tonight. I also want to finish my EECE 530 N assignment today, it's due thursday."

EECE 503 N is a course code and it wasn't detected, I want to prepare a previous for my EECE 210 session, i want to give the session at 7:30 PM tonight should've been parsed into 2 : one in tasks saying prepare eece 210 session and the second is give session tonight at 7:30 pm in meetings. Also priority can be inferred with the assignment being due Thursday and the tutoring session being tonight

### Test 3:

Input: i have an EECE503 assignment due thursday, i have a tutuoring session tonigh at 7:30 PM. i have a dinner on thursday. i have my EECE 430 assignment due sunday. and my EECE 430 project deliverable due friday.

if there's space between eece and the code it won't be recognized as a course code. Wrote tonight wrong, and it kept it tonigh. Did not parse the tasks correctly: missed the 503 assignment, the tutoring session and the 430 project deliverable. The remaining it parsed it as one task only

#### **Test 4:**

Input: i have an EECE503N assignment due thursday, i have a tutuoring session tonight at 7:30 PM, i have a dinner on thursday, i have my eece430 assignment due sunday, and my EECE430 project deliverable due friday, i want to straighten my hair tonight
